

TICAD 9 Musashino Institute for Global Affairs International Forum

Digital Supply Chains for Sustainable
and Inclusive Economic Growth in Africa

—Establishing a Circular Economy in Global Trade—

2025. 8. 20 WED

15:20-16:50(JST)

Venue: Pacifico Yokohama Hall D

Admission free

This forum will present strategies for building a resource-circulating sustainable economic model through cooperation between Asia and Africa. The focus will be on strengthening digital logistics and implementing a circular economy.

- (1) Establishment of a cooperation framework through Africa-led policy recommendations
- (2) Establishment of a circular supply chain based on IoT, AI, blockchain, etc.

We will promote the expansion of Japanese companies in Africa and international economic cooperation through institutional harmonization, resource management, and the development of digital infrastructure.

Notes for the illustration: Translated by Gania ARAUMIYA SADONI YOKOTAU AMANOAWA BASHO The sea rages with history's scars, Yet Sado lies, still bearing dreams deferred. Above it all, the Milky Way—A path through diversity toward a radiant future.
